Letterkenny Institute of Technology

LEARNING SUPPORT UNIT

Mature Students

We make it easy to come back to education. Mature students can apply for most of the undergraduate degree courses for the purposes of full-time study at LYIT. The college also offers Adult and Continuing Education for adults who are returning to learning. For a full listing of courses offered on a part-time basis, take a look at the Continuing Education courses.

LYIT offers an Access Course (Certificate in Preparatory Studies for Higher Education) for those adults who have been out of education for some time.
