

LEARNING SUPPORT UNIT

Mathematics Learning Centre

The purpose of the Mathematics Learning Centre (MLC) is to support students' mathematics learning across all courses in LYIT. Perhaps you lack confidence in your ability to do mathematics? Perhaps you missed out somewhere along the line or had a negative experience learning maths? Is it several years since you last studied mathematics? Maybe your studies were interrupted and you now want to refresh on some topics. It may be the case that some topic had never been covered from your secondary school days!

Whatever the reason, don't wait until it's too late. If you would like to improve your maths then come and see us. We can help. Mature students and adult returnees are particularly welcome to avail of the MLC.

Services offered

The MLC offers a drop-in service for students of LYIT which is free of charge. It is open each day from 9.30 am to 12.30 pm and from 2.00 pm to 5.30 pm and by appointment at other times. Services available for students include -

- Individual consultation on maths and physics topics from your course
- Additional tutorial support in small groups
- Access to special resources
- Diagnostic testing
- Pre-examination revision programmes
- Online support.

It is important to understand that the MLC is not a replacement for attending lectures. Also, we do not offer a service for completing maths assignments!

How to contact us and where to find us

The MLC is located in Room 3460 on the third floor of the main building in the Learning Support Unit, close to the Mature Students' Room.
