## STUDENT SERVICES

There are a wide range of student support services available to all registered students ranging from the Health Centre nurses, doctors & counsellors to the Sports Centre and the Student's Union. These are all located upstairs in An Danlann. The Curve which is based on the 3rd floor of the Main Building provides learning supports in maths, writing and communication skills.

## INDUCTION

Induction is an opportunity for you and your 'new' classmates to get to know each other, find your way around, meet the lecturers and support staff and learn about the facilities and services you can avail of during your time here. You will be shown how to access the library and computers, including the online learning resources. You will find your induction schedule below – it's important to check which group you are in.

Induction is more than introductions - it's expected to be fun and light-hearted while you get to know everyone! You may for the first time in your life, be immersed with like-minded individuals – each, with a similar ambition to influence the future of the creative industries! Enjoy your journey with your new friends!!

## DESIGN & CREATIVE MEDIA

Staff and students of the Department of Design & Creative Media are really looking forward to meeting you and introducing you to our exciting range of programmes!

In these rapidly changing economic times – the creative industries are booming! Provided you apply yourself as a student at Lyit, there is no reason why you will not secure a worthwhile career in this very rewarding landscape!

We offer a number of undergraduate programmes in the areas of Animation, Digital Film & Video, Fashion with Promotion, Graphic & Digital Design and Photography. All our programmes require you to be creative and think differently!

Our aim is to help you develop your ideas and make them a reality, giving you the tools and processes required along the way. While we will show you how to use the software, it is more important for you to learn why you would use the software. In the creative world of design & media, a computer is nothing more than a tool to help you be as creative as possible – your individual creative ability is of much greater value to you!! We work closely with industry practitioners and respond to current trends and requirements of the industries. We encourage you to position your ideas on the national and international stage through competitions and exhibitions! You, as many of our graduates before you, may one day be an internationally recognised creative!! On behalf of all the staff in the Department of Design & Creative Media we hope you enjoy yourself during your time here and find a rewarding career in the years ahead.
